

Ticket to Nowhere

The Origin

Ticket to Nowhere means post hardcore / progressive metal from Luzern, Switzerland.

The Sound

The band's sound is best described as a mixture of post hardcore and progressive metal, clean vocals along with heavy scream parts, melodic, rhythmic, sometimes catchy guitars with "straight from hell" breakdowns into relaxing phrases – which results in an extremely entertaining experience!

The Development

The past three years the band has worked hard in developing their own style of metal.

Becoming increasingly more popular on stage as well as online has invigorated Ticket to Nowhere to further expand their ideas of modern metal.
